To the Editor of The Inquirer:

With the completion of series of 12 articles, excerpts from the "C. I. A. The Inside Story" by Andrew Tully I am rather prone to support the thesis of E. Zev Sussat of the Embassy of Israel that the "degree of imagination involved in Mr. Tully's stories must be quite fabulously fertile."

With reference to your editorial, "Blue Shield's Medical Plan for the Aged," allow me to inform you that majority of us over 65 consider this plan together with the plan recently proposed by the American Hospital Association and Blue Cross as greatly inadequate.

We are in favor of President Kennedy's plan to place health care of the aged under Social Security.
